

MEASURING YOUR SCREENS

- A** Straight Width _____
- B** Curve Width _____
- C** Curve Height _____
- D** Thickness/Gauge _____
- E** Flat/Straight End? _____
- F** Hole Shape/Size _____
- G** Web _____
- H** Screen Length _____

Frame ☐ No Frame ☐

- ☐ **Straight Width** - This is the length of screen measured straight across
- ☐ **Curve Width** - This is the length as measured with your tape following the curve of the screen
- ☐ **Curve Height** - This the distance measured from the bottommost point (or the flat surface your screen is on) to highest point inside the curve of the screen
- ☐ **Thickness/Gauge** - How thick is the metal used on your screen or what gauge steel is it?
- ☐ **Flat/Straight End** - Does your screen have a flat or straight part on the end or is the curve continuous from tip to tip?
- ☐ **Hole Shape/Size** - Are screen holes round, rectangle, square, etc? What are the dimensions of the shape?
- ☐ **Web** - The distance or width of metal between the holes
- ☐ **Screen Length** - The length of your screen as seen from a top view
- ☐ **Frame** - Does your screen have a support structure?
